## Self-Adhesive Bumper Feet

### Technical Data Sheet

Date:

19 March 2025

#### Product Description:

Self-adhesive backed protective Bumpers out of excellent UV-stable Polyurethane, that can be used as feet, stops, spacers and protectors in many applications.

Material:	Polyurethane
Liner:	White Siliconized Paper
Adhesive:	Solvent Acrylic
Colour:	Transparent Or Black
Colour Super Clear Series:	Transparent
Hardness:	60 – 80 Shore (Astm D-2240)
Outdoor Resistance:	Very Good
Density:	1,1 G/Cm <sup>3</sup>
Tolerance:	Height +/- 0,5 Mm
Temperature Range:	- 30 °C To + 90 °C

#### Adhesive

FTM 1 (Finat Test Method No. 1)

Peel Adhesion on V2A steel

(180° peel at 300 mm/min)

after 20 minutes at 23 °C ± 2 and

50 % ± 5 rel. atmospheric humidity: 15N/25 mm

#### Shelf Life

1 year when stored at 15 to 25°C and □ 50 % relative humidity.

#### Note
